

Changing the Destination Folder for Pictures/Video Using ArcSoft

This will show you how to point the destination folder to your OneDrive for Business Folder.

First Start the Arcsoft software and choose the Extras button at the top.

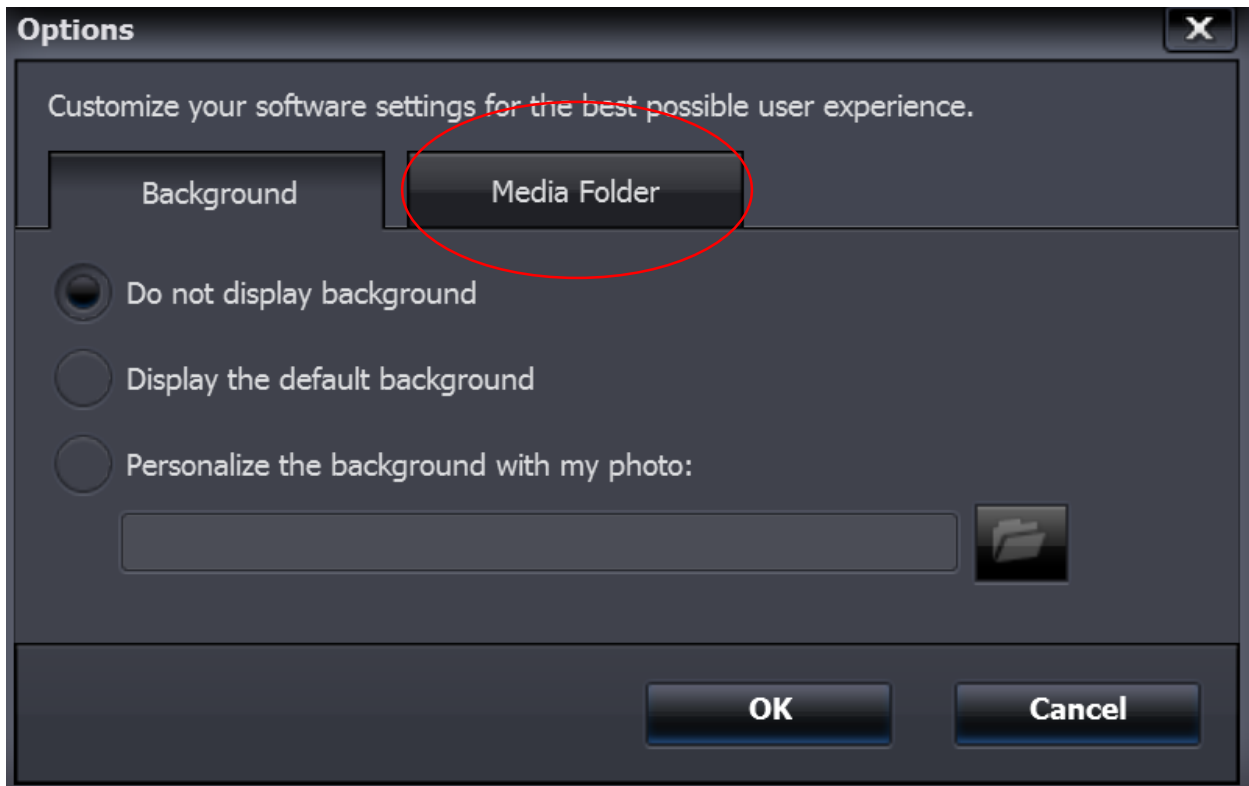

Once you have done that this menu will appear, choose Option.

Changing the Destination Folder for Pictures/Video Using ArcSoft

This menu will appear. Choose the media folder tab.

Once you have done that then you can navigate to the OneDrive folder. (Note: You must go to C:\Users\username\OneDrive @ Tippecanoe School Corporation\Document Camera Media)

You will also want to create a folder on the OneDrive before you do this.
