

# TINKERGARTEN

What is Tinkergarten?

\*Outdoor learning program for kids ages 18mo-8years designed by education experts and loved by families.

\*Expert-led, play based classes help kids develop important skills and fall in love with nature.

\*Live classes start the week of January 16<sup>th</sup> and run for 9 weeks at Celergy Bog Nature Area.

\*Classes offered Tuesday afternoons and Saturday mornings.

This winter, we'll turn the outdoors into a discovery lab, helping kids earn their [problem solving](#) badges! Plus, we'll enjoy warm Tinkergarten tea, witness the magic that winter has to offer, and help kids learn how fun and healthy it can be to play outdoors all four seasons!
