

Canvas Standard Integration Support

Description

This document provides support for your Canvas Standard Integration (self-integration process). The detailed instructions, links and videos are extremely helpful for high school integration. Careful adherence to each step, along with close communication with your Canvas Administrator and Pearson Account Manager results in the best experience!

Canvas Standard Integration

Step 1

Before You Get Started (*Must include Canvas Administrator*)

1. Check with your Pearson Account General Manager to learn if your specific MyLab/Mastering course is available for Canvas Integration.
2. Your Canvas Administrator needs these [PDF Instructions](#) to install *MyLab & Mastering for Canvas Building Block*.

Step 2

Teacher Registration

1. Check with your Pearson Account General Manager to confirm you have the correct teacher code for Canvas integration. Once confirmed, Teacher Registration information is below.
2. Teachers must go to www.pearsonmylabs.com to create a teacher account and register their Canvas teacher code.
 - a. *Canvas Teacher Registration Tutorial* - [video link](#)
3. Teachers will add the *MyLab/Mastering* link to their Canvas navigation menu.
 - a. *Linking MyLab to Canvas Tutorial* - [Video Link](#)
4. Teachers will sync their teacher account with Canvas and create their course.
 - a. *Note: When creating a Teacher Course, search by Author, then carefully choose exact title and edition. See video for demonstration.*
 - b. *Teacher/Sync & Course Creation Tutorial* - [Video Link](#)

Step 3

Student Registration

5. Check with your Pearson Account General manager to confirm you have the correct student code for Canvas integration. Once confirmed, Student Registration information is below.
 - a. *Canvas Student Registration Tutorial* - [Video Link](#)

Additional Video Tutorials - optional

- [Copying a MyLab/Mastering Course in Canvas](#)
- [Canvas Grade Sync](#)
