

News from the Health Office

Welcome Fall! The year is already flying along, but we have some “beginning of the year” business that still needs completed. Parents/guardians, if your student had immunizations over the summer, we need a copy of those immunization records from your child’s Dr.’s office. Notes from the health office about missing shots will soon be coming home to specific students. Please make sure your child is up to date on all of their shots. Hep A, Meningococcal, and Tdap were due over the summer for incoming 6th graders, and many students are behind.

The 8th graders had their vision screened last week. Special thanks to the Lyon’s Club who volunteer their time to come and do those vision screenings. Please watch for notes home for those who may require follow-up appointments with their eye doctor. Poor vision affects a student’s grades and ability to participate in class and should be taken seriously. Many of our students were not wearing their glasses or contacts on screening day.

As always feel free to contact me with any questions or concerns at mjratcliff@tsc.k12.in.us or by phone at 765-269-8357.

Thank you,

Melanie Ratcliff, RN

News from the Library

There will be a pizza incentive in the Media Center Thursday the 17th of October, for the students that have scored 80% or higher on quizzes over at least four books. Students that have excelled in reading more books will get an additional reward. All entry slips need to be turned in by 8:00 a.m. on the 14th of October for validation and posting. I need to let the cafeteria staff know for their food count. Students that qualify for the incentive will come to the media center for lunch instead of going to the cafeteria. Looking forward to eating with the book readers of Wainwright.
